

Change of Leadership

Positioning oneself.
Knowing the others' expectations.
Planning the future way together.

Are you entrusted with new employees and challenging tasks as a team leader, project leader or head of department?

A time out to get to know each other and to compare the respective expectations and needs will be worth the while: positions and requirements become clear, rules for the cooperation are set and the direction is communicated.

We combine the change-of-leadership workshop with experience-oriented elements of team development – in the reflexion, we look at important behavioural patterns that are essential for the success in the team's daily life!

Elements of the change-of-leadership workshop with the new leader are:

Getting to know each other: Who is in the team? Who is the new leader?

Looking back: What kept the team members thinking about? Where does the team stand? Which projects and rules are there?

Looking at the future: What will the team have to face?
